

JOB TITLE:**BUSINESS INTELLIGENCE SPECIALIST**

Restaurant Equipppers, Inc., a national mass merchandiser of Restaurant Equipment and Supplies to the Food Service industry, is seeking an experienced Business Intelligence Specialist to work at its Corporate Office located in Columbus, Ohio.

The company provides a competitive salary, rich employee insurance benefits, 401k retirement savings, paid vacation and holidays, job security resulting from decades of stable economic growth, and an opportunity to work in a family friendly organization that is continually growing and expanding.

Visit our website at www.equipppers.com for more information about our company.

JOB RESPONSIBILITIES:

The Business Intelligence Specialist reports directly to the Director of Information Technology and indirectly to the Chief Information Officer. The position will also work with other IT staff members and senior management to understand and prioritize data and information requirements.

The role of the Business Intelligence Specialist is to expand the company's use of business intelligence as a strategic enabler of corporate objectives. The Business Intelligence Specialist will achieve this by guiding the strategic design, development, and implementation of business intelligence solutions.

Designs and coordinates a curriculum for coaching and training Restaurant Equipppers employees in the use of business intelligence tools to enhance business decision making capability. Optimizes the performance of enterprise business intelligence tools.

Develops standards, policies and procedures for the form, structure and attributes of the business intelligence tools and systems.

JOB QUALIFICATIONS:

1. Bachelor's degree or equivalent work experience in related field.
2. Minimum five years of business intelligence related experience.
3. Experience implementing packages and working with vendors
4. Extensive experience with Microsoft SQL database technologies.
5. Some experience with additional database technologies (MySQL, Access, etc.)
6. Strong analytical and problem-solving skills
7. Advanced experience with OLAP Cubes (including MDX), OLAP features in Excel, and Excel Pivot Tables
8. Comprehensive data warehouse analysis and design experience, with full knowledge of data warehouse methodologies and data (dimensional) modeling
9. Working knowledge of SSRS, SSIS, and SSAS.
10. Knowledge of Crystal Reports.

11. Strong knowledge and understanding of business needs, with the ability to establish and maintain a high level of trust and confidence in the enterprise analytics solutions.
12. Effective teamwork and communication skills, both oral and written.
13. Ability to explain technical information in a way that establishes rapport, persuades others and promotes understanding.
14. Strong mentoring skills for teamwork.
