

CDN's Infrared Thermometers include new and innovative technology for non-contact surface temperature measurement without the risk of cross contamination to ensure the best culinary results.

### **IN428 - INFRARED THERMOMETER**

- Instrument Range:  
-67 to +428°F/-55 to +220°C
- Shatterproof
- $\pm 1.1^{\circ}\text{F}/0.6^{\circ}\text{C}$  accuracy
- For non-contact surface temperatures
- 1-second response
- Maximum, minimum and lock for continuous scanning
- Distance: Spot = 1:1
- Data-hold
- One-button operation
- Battery status indication
- Food-safe ABS plastic
- Auto-off
- Pouch
- Rope mount
- 3V Button IEC CR2032 Lithium
