

Magnesol Model CF-50

Filtering has never been this AFFORDABLE!

The CF-50 is a low cost, light duty, portable oil filter designed to extend the useful life of oil by filtering out solid impurities, such as crumbs and carbon that degrade the oil. Remember to use [Magnesol XL Filter Powder](#) to remove the finest crumbs and sediment and remove soluble impurities giving your oil eXtra Life so you can fry light, crisp and golden delicious fried food. The pump automatically cycles the oil through filter paper and filter powder, trapping the particles and debris and returning the clean, refreshed oil into the fryer. The quick-disconnect feature on the hose allows for compact storage and easy cleaning.

Includes motor and pump, 10' oil-proof supply cord, filter assembly, hose and nozzle assembly, and low-profile, polished stainless steel filter tank.
