

DISCOVERING THE ICE-O-MATIC DIFFERENCE

In restaurants, hospitals, bars, schools, supermarkets and fast-food operations, ice machines play an increasingly crucial role in the success of business. There are many manufacturers in the market supplying this growing need for ice, but which one do you choose?

Before making your decision, consider Ice-O-Matic for the following reasons:

Simple By Design

At Ice-O-Matic, we believe boring is beautiful. Every one of our machines feature **practical design**. Ice-O-Matic ice makers are thoughtfully designed for simplicity. Features like our easy-access cabinet, easy-to-clean ice-making system and simple controls make life easier.

Purity

Some people may not realize it, but ice is a type of food. That's why our innovative, food-safe AgION® antimicrobial compound is permanently integrated into each machine's essential food-zone areas. This innovation safeguards the sanitation of the ice-making system.

World Class Service and Support

Anyone can sell an ice machine, but it's what the seller does after the point of sale that really differentiates them from the competition.

At Ice-O-Matic, we strive to understand our customers' needs in order to consistently and quickly recommend and install the right machine for the right job.

Better Productivity

Our ice machines are designed for **long-lasting performance**, unparalleled ease of operation, as well as quick diagnosis, maintenance and service.

Productivity Example: In a recent internal comparison of the Ice-O-Matic ICE0400A to similarly-sized competitor machines, our machine produces more ice in 24 hours – up to 22 pounds more, per day.

The ICE0400A 24-hour production research, projected over 10 years, delivers 40 tons more ice to the operator.

When we say you get more ice for the price, we really mean it.

Built in America...And Proud of It

Since our founding more than 60 years ago, Ice-O-Matic is committed to manufacturing our bins and ice machines in Denver, Colorado.

Warranty

Using Ice-O-Matic water filters and replacing them every 6 months extends the evaporator warranty to 7 years – the **ONLY** 7-year warranty in the industry!

BOTTOM LINE

Choosing the right manufacturer matters. The Ice-O-Matic difference means customers receive American made purity, simplicity, productivity and reliability. Every time.
