

Tabletop Installation & Maintenance

Instructions

Tabletop Installation

- 1) Flip your tabletop on its top side. Be sure to use a soft surface to protect your tabletop.
- 2) Mount your base wherever you like, as long as you are at least 2" from the edges.
- 3) Using a wood screw that goes into the tabletop no more than $\frac{3}{4}$ ", screw directly into the holes provided on your mounting plate.

DO NOT PREDRILL!

- 4) Repeat step 3 until all holes in every mounting plate are used.
- 5) Installation is complete.

Tabletop Cleaning & Maintenance

Granite -

Mild soap and water works best for daily cleaning. If you must use sanitizer, use a 50:50 solution of water and 91% isopropyl alcohol.

Re-sealing every 3-4 months will keep your granite looking new for years. Granite sealant can be purchased at almost any hardware store and the process is very simple.

Quartz -

Mild soap and water works best for daily cleaning. If you must use sanitizer, use a 50:50 solution of water and 91% isopropyl alcohol.

No monthly maintenance is required for quartz as it is non-porous. Clorox Bleach Wipes or a Mr. Clean Magic Eraser works best for any tough build up that may occur.
