PSC28I

DESCRIPTION

The Star Pro-Max 2.0® sandwich grills are designed to cook wraps, sandwiches, chicken breasts, hamburgers, and much more. The design is compact and portable providing flexibility. These grills can come with smooth, grooved, or combination surfaces, all made of cast iron. The available digital electronic temperature control and timer are industry leading options.

SPECIFICATIONS

The PSC28 and PGC28 sandwich grills will be constructed in the U.S.A. with a corrosion-resistant stainless steel body. The hinge mechanism will use a heavy-duty counterbalance design. The grill will come with grooved, smooth, or combination smooth bottom/grooved top cooking surfaces depending on model. The platens will also be cast iron. The grill will provide contact heating to up to three [3] inches (762 mm) thick. The grill will operate between 175°F (79°C) and 550°F (288°C) and will be controlled by a bulb and cap thermostat or digital electronic control depending on model. The power will be single phase. Each unit will come with a pre-wired six [6] foot (183 cm) cord with a standard NEMA 6-30P plug or an optional NEMA 6-50P plug to meet CSA standards.

WARRANTY

These units come with a one [1] year warranty for parts and labor.

FEATURES

- Heavy-duty counterbalance hinge system provides simple, durable, problem free operation
- Accommodates sandwiches up to three [3] inches (76 mm) thick with consistent contact and heating
- Cast iron cooking surfaces provide superb heat retention.
- Grooved, smooth or combination smooth bottom/grooved top cooking surfaces
- Multiple control options—analogue temperature with or without digital timer, or electronic.
- Heavy-gauge oil and water resistant conduit protects electrical connections

OPTIONS & ACCESSORIES

- Smooth, grooved, or combination smooth bottom/grooved top cooking surface
- Electronic temperature control and timer or electronic timer only

SANDWICH GRILL MODEL FORMULA
