☐ 11814EF

- ☐ 21814EF
☐ 31814EF

- ☐ 41814EF
☐ 11814E/RE17/11814E (with filter)

Model Shown:
21814E with optional filtration

Model Shown:
11814E/RE17/11814E

Standard Features

11814E/ 21814E/31814E/41814E

- 18" x 14" x 4-1/4" (45.7 x 35.6 x 10.8 cm) frying area per frypot uses 60 lbs. (30 liters) of oil and cooks three twin baskets of food at the same time
- 17 kw input per frypot meets high production demands of a varied menu
- SMART4U® Lane controller has programmable cook buttons and features that make it easy to produce consistent great-tasting food.
- Proprietary, self-standing, swing-up, flat-bar low-watt density long-life heating elements
- High energy efficiency and production capacity
- Robust, RTD 1° compensating temperature probe
- Stainless steel frypot, door and cabinet sides
- Sturdy stainless steel basket hangers
- Three twin baskets per frypot
- 21814EF, 31814EF, 41814EF come standard with filtration and casters

11814E/RE17/11814E Has Standard Features of the Batteries Above Plus:

- An RE17 frypot that meets ENERGY STAR® guidelines with a 50-lb (25 liter) oil capacity, 17 kw input, and a 14" x 14" x 3-1/2" (35.6 x 35.6 x 8.9 cm) cooking area

- The RE17 frypot has a 2-Lane controller with all the features of the 3-Lane controller except that it manages the cooking of 2-twin baskets instead of three
- Two additional twin baskets

Options & Accessories

- ☐ Built-in filter for 11814E model
☐ Bulk oil (dispose and fresh fill) on batteries with built-in filtration
☐ External oil discharge (dispose only) available on built-in filter batteries of two or more frypots. Must specify front or rear connection. Front connection comes with 5' washdown hose (precludes bulk rear oil discharge)
☐ Digital, CM3.5 and SMART4U 3000 controller
☐ Frypot covers
☐ Chicken/Fish plate
☐ Chicken basket
☐ Full basket
☐ Dual basket
☐ Quad basket
☐ Casters (included on filter models)
☐ Crisper tray
☐ Splash shield

Specifications

Designed to handle high production demands of a varied menu while conserving space, energy, and oil.

The 11814E large capacity electric fryers have 60-lb. (30 liter) frypot oil capacity with an 18" x 14" x 4-1/4" (45.7 x 35.6 x 10.8 cm) cooking area. The ability to cook three baskets of food in an 18" x 14" x 4-1/4" cooking area allows for footprint, oil use and energy use reductions over standard 50-lb fryers. Two 11814E fryers can do the work of three standard fryers and two 11814E fryers combined with an RE17 fryer allows three fryers to do the work of four standard fryers. The savings add up quickly using 15-20% less oil, upwards of 33% less energy, and 10-15% less space.

Frymaster's proprietary self-standing, swing-up, flat-bar, low-watt density, long-life heating elements and controls ensure industry-leading energy efficiency.

The robust RTD, 1° Compensating temperature probe, mounted on the elements, ensures precise

temperature readings. The thermostat system minimizes temperature overshoot maximizing oil life. It also compensates for variations in cooking loads, consistently producing high-quality food.

The fryers' SMART4U Lane controller has programmable cook buttons and features that make it easy to produce consistent, great-tasting food. The Digital, CM3.5, and SMART4U® 3000 controller options are also available.

The bottom of the frypots are sloped toward the front and are equipped with a large drain line so crew members can quickly flush out sediment and remove old oil.

The built-in filtration models make it easy to preserve oil life and maintain food quality. The built-in filter utilizes an 8 GPM (30 LPM pump and is equipped with a 3" (7.61 cm) drain line, making filtering fast, safe and easy. The "built-in" feature puts filtration within the fryer battery where it's most convenient to use.

All 1814E models meet ENERGY STAR® guidelines and are part of the Manitowoc EnerLogic™ program.

*Information is APPROXIMATE and may vary at time of shipment due to options/add-ons per customer request.

NOTES

- Cord is provided with exception of items in red (see chart on left).
- Plug is optional on all units shipped with a cord. Canada is an exception; and cords, where available, must have a plug attached.
- All 480 volt models are provided with a separate 120 volt cord and plug for filter pump and/or controller.

CLEARANCE INFORMATION

A minimum of 24" (61 cm) should be provided at the front of the unit for servicing and proper operation, 6" (15.2 cm) between the sides and rear of the fryer to any combustible material.

HOW TO SPECIFY

The following descriptions will assist with ordering the features desired for this equipment.

11814E*

11814E/RE17/11814E

One Frymaster 60-lb (30 liter) oil capacity electric fryer with 18" x 14" x 4-1/4" (45.7 x 35.6 x 10.8 cm) cooking area and SMART4U lane controller.

Two Frymaster 60-lb (30 liter) oil capacity electric fryers with 18" x 14" x 4-1/4" (45.7 x 35.6 x 10.8 cm) cooking areas, one Frymaster 50-lb oil capacity electric fryer *with 14" x 14" x 3-1/2" (35.6 x 35.6 x 8.9 cm) cooking area, SMART4U lane controllers and built-in filtration.

***Indicates number of frypots (1, 2, 3 or 4)

****Add built-in filtration for filter models.
