Specifications

Heavy-duty range match fryer, 20 kW with 70 Lb. (31kg) shortening capacity. Heavy gauge, continuously welded nickel-plated fry tank. Utilizes four fixed immersion type inconel elements positioned to provide heat to the sides, back, front and bottom of the frying area. Stainless steel front and sides, mounted on storage cabinet complete with door. Fryers are available with casters or for dais mount.

NOTE: The fryer may be paired together to form a common unit. They may be paired with a frymate model or may be set up as fry-stations of two fryers with a frymate unit between them. These fryers are designed to battery with 36E series heavy-duty ranges.
