Specifications

The Garland E24-12H electric heavy duty counter hot plate is designed and engineered for high volume fast food operations, providing fast preheat, high production and versatility with quality results. Designed as freestanding units or to bank with other E24 series equipment or with G24 series gas counter equipment providing flush fronts and backs. Stainless steel front and sides, 15" (381mm) wide x 29" (710mm) deep x 11 1/4" (286mm) high. Elements tilt up to facilitate removal of porcelain enameled spillover bowls for easy cleaning. Infinite heat switch with indicator light controls each 8 1/2" (216mm) diameter 2.1 kW element, both switches have "OFF" settings. Indicator lights are mounted on switch panel and show when element is "ON". Front access panel is removable.
