

## Deluxe Food Warmer | DFW

**DFW-100**

**DFW-200**

**DFWT-100**

**DFWT-200**

With just plain tap water, the Deluxe Food Warmer by Antunes can be used to prepare a variety of different menu items, including pastas, breads, meats, seafood, poultry, eggs, vegetables and more.

The Deluxe Food Warmer converts plain tap water into super-heated dry steam that fully penetrates foods from all sides to keep the original textures, colors, flavors, and nutrients. The end result: food that looks fresher and tastes better.

The Deluxe Food Warmer creates steam with the simple push of a button. Because the amount of steam is consistent, it removes the guesswork and produces a uniform finish from one operator to the next.

NOTE: Units with a direct water hookup require a water pressure regulator. The psi should be between 20 and 30.

### FEATURES

- Open compartment delivers steam from all sides.
- Available with half or two-thirds size pan capacity.
- Instantly turns plain tap water into super-heated dry steam.
- Fully adjustable pulse of steam.
- Prepare a variety of different menu items with a consistent finish each and every time.
- Stainless steel construction.
- Available with a self-contained water reservoir or direct water hookup.
- Hi-limit reset button.
