

PRODUCT DESCRIPTION

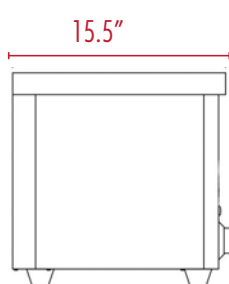

Patriot's stainless steel cheesemelters are perfect for quickly melting cheese, toasting nachos or sandwiches, and finishing. The small footprint and compact design make these units perfect for kitchens with limited space. The body is insulated to prevent heat from escaping the melting chamber, and the metal sheath heating element quickly warms, toasts and melts to perfection. The units infinite switch provides precise control over the amount of heat given off, and its multi-position food rack allows you to set food at the perfect distance away from the heat source. This 240V unit comes with a 4' power cord and a NEMA 6-20 plug.
