Flav-R-Fresh®
Impulse Display Cabinets
Models: FDWD-1, -1X, -2, -2X

The Hatco Flav-R-Fresh® uses controlled moisture and heat to showcase your product longer, not just for minutes but for hours. It holds everything from hot pretzels to 15" (381 mm) pizzas, croissants to bagels, and even hot dogs and meat pies.

Electrical components, controls and water reservoir are located at the top for easy access. Electronic controls monitor cabinet temperature. Models with two doors are available for pass-through convenience and a variety of merchandising racks help enhance food appeal.

The Hatco Flav-R-Fresh is ideal for restaurants, pizzerias, convenience stores, concession stands, snack bars and kiosks.

FDWD-1
accessory 4-tier circle rack and rack coupling

Standard features

- Energy efficient LED lighting showcases your food appeal while safe-guarding food products from bulb breakage
- Separate heat and humidity controls keep crisp foods crisp and moist foods moist
- The rounded designed cabinet features tempered glass sides and door for full-view display
- Single- or double-side opening models
- Specify left- or right-hinged door at time of order, and doors are field reversable (excludes self-closing door)

☐ Flat front, back and sides ☐ Curved front, flat back and sides
☐ Curved front and back, flat sides

WATER QUALITY REQUIREMENTS
Water supply in excess of 3.0 grains of hardness per gallon (GPG) (.75 grains of hardness per liter) must be treated and softened before being used. Water containing over 3.0 GPG (.75 GPL) will decrease the efficiency and reduce the operating life of the unit.
Note: Product failure caused by liming or sediment buildup is not covered under warranty.

IFS anti-microbial coatings use naturally-occurring, environmentally sustainable, silver ions to help inhibit the growth of microbes on the powder coated surface. See www.hatcocorp.com/antimicrobial-paint for more information.

For operation, location and safety information, please refer to the Installation and Operating Manual.
