Rapide Cuisine® Countertop High-Powered/Heavy-Duty Dual Induction Ranges

Models: IRNG-PC2S-16, -18, -29, -36, -24-IA, -36-IA
IRNG-PC2F-16, -1, -29, -36, -24-IA, -36-IA

Hatco's patented Rapide Cuisine® High-Powered/Heavy-Duty Dual Induction Ranges offer industry-leading features and true back-of-house power in a commercial kitchen proof package. These are dual units that are configured either front-to-back or side-to-side to optimize your countertop footprint.

The unit features optimization systems like Magnetic Power System (MPS) to deliver the highest power in its class; safety features like Pan Sense Technology (PST), which means the unit only activates when a pan is present; and convenience features like User Programmable Presets (UPP), where up to six menu items using three stages of cooking can be programmed and saved -- great for repeat menu items. Or choose a power level and a doneness temperature target when using either of both of the probe(s).

More powerful options to suit available power units. The industry leading "IA" models feature Optimal Power Control (OPC) which delivers higher power from lower amperage circuits, boosting power by 25% when needed, and allowing for a double unit on what would normally be a single unit circuit. Allows a double unit to occupy the same linear footprint as a single unit, hence doubling production while remaining within UL standard.

Standard features:

- Food temperature probes for more accurate cooking
- Timers (up to 10 hours, more if in program mode)
- High resolution color displays
- Power (0-100) or temperature (°F or °C modes)
- Heavy gauge stainless steel housing with side impact protection for the top
- Eight surface temperature sensors
- Culinary equivalent of up to 31,000 BTUs gas per burner
- Grease filters
- Highest ambient tolerance on the market 124°F (51°C)- it's tough
- Numerous options to suit available power circuits, including the unique "IA" models that deliver the highest available power from lower amperage circuits
- USB ports for downloading updates

For operation, location and safety information, please refer to the Installation and Operating Manual.

PLUG CONFIGURATIONS

PRODUCT SPECS

Rapide Cuisine® Countertop High-Powered/ Heavy-Duty Dual Induction Ranges

The High-Powered/Heavy-Duty Countertop Dual Induction Range shall be a Rapide Cuisine® model, manufactured by the Hatco Corporation, Milwaukee, WI 53234 U.S.A.

The Induction Range shall be rated at ... watts, ... volts, single phase and be ... inches (millimeters) in overall width. The Countertop Dual Induction Range shall consist of a stainless steel housing with an aluminum base with a glass-ceramic top with two induction generators, and two power coils. It includes a tempered glass control panel with individual controls for each induction element, with touch buttons, 0-100% power

levels and temperature control in F° or C° plus color-coordinated TFT color display and controls. The range will be controlled via an electronic rotary/push control and features 3-stage programming, cook to time with power or temperature control, a cook to temp feature and a USB ports for updates and future access to additional operating modes. Food temperature probes and 71" (1800 mm) cord and plug is included.

Warranty consists of 24/7 parts and service assistance (US and Canada only).
