## 1-2-**3**-4 Select pumps and/or ladles

### PUMPS

Consistently serve with portion-controlled, stainless steel pumps; adjustable in 1/8 oz increments. Designed with food types in mind – use the Dispenses Key to narrow your search. Thick Pump (TP) models reduce dispensing force needed for especially thick or crafted sauces. NSF clean-in-place certified. Two-year warranty.

Dispensing large portions or using a slanted fountainette?  
\*Support bracket (100001) prevents tipping when used in SR-2, SR-3 or SR-4 bases.

Be sure to select the correct pump for your jar – pumps for shallow jars have a shorter cylinder than those for deep jars

CP models (b) have unformed tube ends, whereas FP models (c) have formed ends to hold back thin product drips

DI models have a 3-inch-taller spout for additional serving clearance

### LADLES

Perfect for serving dry or difficult-to-pump ingredients. Stainless steel construction with a 1 oz capacity.
