

36" Six Burner Gas Range with a Standard Oven

Argus gas ranges are constructed of a stainless steel front, backriser, shelf and legs with galvanized sides. Each 30,000 BTU burner has its own 12"x12" removable cast iron grate with a standing pilot light and individual control knob for quick, instant lighting. The standard oven has a total BTU output of 30,000 BTU. The interior of the oven is constructed of all steel with a porcelain oven liner on the bottom. The oven thermostat adjusts from 200°F - 500°F and is equipped with a flame failure safety device.

This item meets the sanitation standards imposed by the ETL, a division of the Intertek Group.

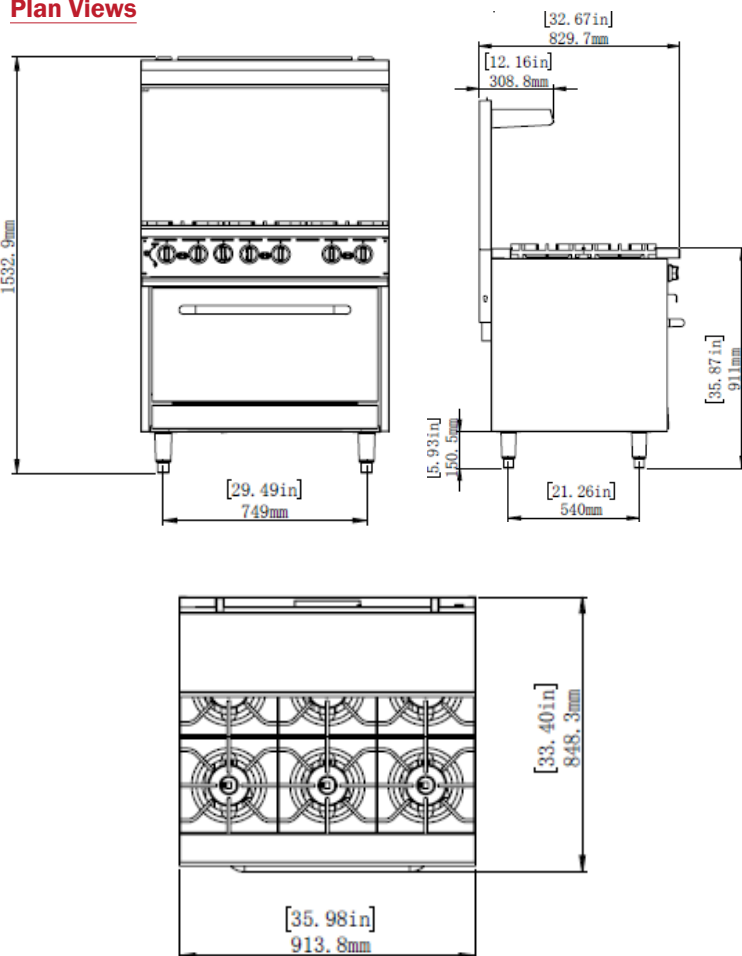

This item meets the electrical product safety standards imposed by the ETL, a division of the Intertek Group, for use in the United States and Canada.
