COMMERCIAL DISPLAY FREEZERS Models : BCDF-220Q, BCDF-320Q

BERG's display freezers are designed for commercial use. They features a lockable lid to ensure the security of stored items. The low-profile casters facilitate easy mobility, making it simple to relocate the freezer as needed. Constructed with a durable white powder-coated steel exterior and an embossed aluminum interior, this display freezer is built to last. It operates with a manual temperature controller that includes light-up indicators for easy monitoring. These models are ETL Listed and ETL Sanitation Listed. They come with a NEMA 5-15 plug and a six foot cord that requires a grounded circuit for safe operation.

Product Features

- Clear, curved glass sliding lids
- Interior LED lights makes it easier to see selection
- Maintains a temperature range of -18° to 23°F
- Heavy duty white powder-coated steel exterior
- Embossed aluminum interior
- R290 refrigerant ensures ideal operating temperatures
- Includes two baskets
- Casters for easy moving and cleaning
- Foamed-in-place polyurethane high density cell insulation throughout the entire cabinet

Operating Conditions

- Minimum distance of at least 4" is required along the sides and back of the chest freezer.

Warranty

- One year limited replacement warranty

   	Specifications subject to change without notice.
